RAZOR

RAZOR POWER TARP Rollover

Making a driver's life safer

The Razor Power Tarp features a state-of-the-art electronic controller that ensures smooth, trouble-free operation.

Greatly Improves Productivity

Wireless Remote (Optional) In safe hands

Allows the operator to control the Power Tarp from either inside the cab or anyplace within safe-sight from the trailer.

Damian Everarde Managing Director

Rowsley Claytrans

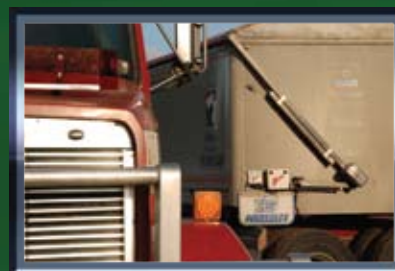

I've been using the Razor Power Tarp system since 2004 and there's no way I could go back to manual winding. The system makes my day a simple and easy one. In fact, with the introduction of the wireless remote, it hardly feels like I've done a hard days work.

Tec specs

Drive motor torque 200Nm
Electronic motor control
12 VDC power pack with charger
Adjustable arm return tensioner

Safety aspects

No more back strain
No more aching neck
No more climbing slippery ladders
No more manual winding
